

**WCOSS Draft RFP Posted to FBO 11/12/2010**

**Answers to Questions received as of 12/16/2010**

**Q: Industry Day**

Thanks for hosting WCOSS Industry Day on Monday. We appreciate the opportunity of participating in the procurement and look forward to reviewing the final Request for Proposal. After much discussion and consideration over the government response to questions about performance penalties, it is our opinion that the government position of applying monthly performance penalties to all WCOSS components including facilities places extreme financial risk on potential bidders and has the potential of dramatically limiting competition for the government. Respectfully request that the government reconsider its position on Section F.1.3 "Consideration for Not Making Performance Requirements".

**A: Revisions to Section F.1 Consideration will be posted in the Final RFP.**
